

**Kellogg's doesn't want
Americans to know
the true nature
of their
products.**

**What do Kellogg's
cereals really
have in them, and what
are their effects?**

These insecticides
may be toxic to
human kidney
cells, disturb
the immune system,
and damage
multiple organs.

WHAT ARE
WE
FEEDING
OUR
CHILDREN?

KRISPIES

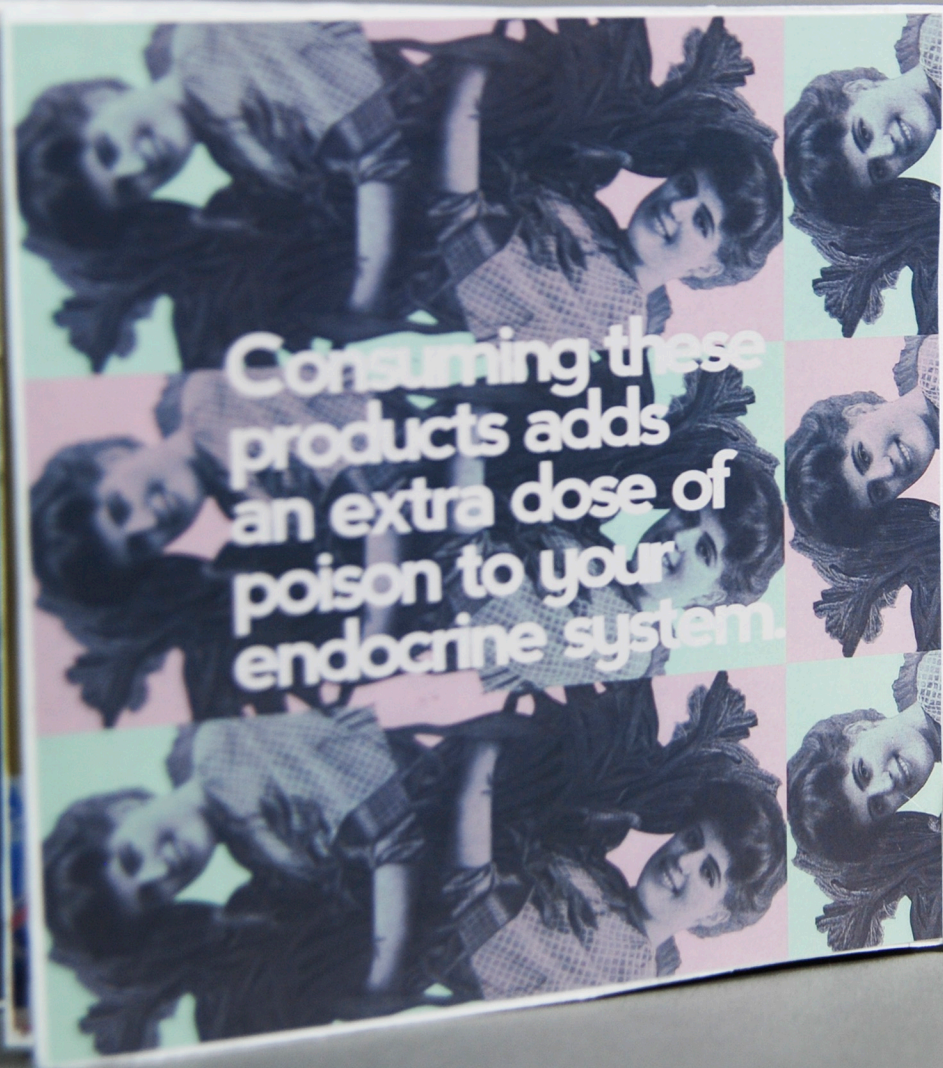

SOYA
SHRIDS

Consuming these
products adds
an extra dose of
poison to your
endocrine system.

It's time to
become more
mindful of what we
eat and its effect
on our bodies.
