## Foreword

THIS is the DeLuxe Edition of the 1939 Catalog of International Sterling Hollow Ware. It presents in Section W, the hollow ware products of the Wilson & Everett division, a line of matchless design particularly for the high-class jewelry store. In Section L is shown a line of very high-grade commercial hollow ware, products of the Simpson, Hall, Miller & Company division. Section P illustrates the fine novelties and small hollow ware pieces made by the Warren Manufacturing Company division.

In this book, probably the largest and most comprehensive assortment of sterling silver hollow ware ever presented, is assembled in convenient form. Whether your requirements are for a rich tea service of heavier weight or a ring around dish, we feel sure you can quickly please your customer from the extensive selections illustrated.

You will find this book valuable in three ways. For reference, it places at your finger tips a wealth of information on every article made in sterling silver. For ordering, its accurate illustrations and complete descriptions make it indispensable. For selling, you will want it constantly within reach because its retail prices and the descriptive selling copy under each article will help you clinch many a sale.

In presenting you with this copy of the International Sterling Hollow Ware Catalog, therefore, all that we ask is that you let it work for you. Let it help you in your sterling silver business.

*Prices in this catalog are subject to change without notice. All goods listed at prices current as date of shipment.*

## Foreword

A *catalogue* should be a valuable reference unit, which illustrates accurately, describes completely, and makes ordering a simple matter. We feel confident that this, our 1924 catalog of INTERNATIONAL SILVER CO. branch of the International Silver Co., does these things and does them well.

In it are shown the latest creations and best selling members of our line, and we particularly call your attention to the varied assortment of both traditional and modern designs, and the attractive price range of the articles in them. As a catalog, it is an excellent example, but we want it to be something more than that. We want this book to be a real sales aid in your store, something that you can show your customer and from which you can actually sell goods.

The small prices quoted will help you in this, but the descriptive selling copy which appears under each article and contributes that necessary touch of human interest which so often means the difference between a sale and no sale, is the feature which, we hope, will make this book not a mere catalog, but an invaluable "silent salesman" in your store.

Finally, we urge that you keep this book handy, ready for instant use, and then use it constantly as the reference, the ordering, the selling.

This catalog is the 1924 edition, and supersedes all preceding ones. Prices are subject to change without notice, and all goods will be billed at prices current at date of shipment.

## The Manual Design

ON NOVEMBER 18, 1924, was born a great new domestic movement. This was the date on which was opened the American Wing of the Metropolitan Museum of Art.

Today, the trend toward a true American Period dominates all decorative development. All Americans are beginning to realize that this country has a distinctly American style, that this style represents the American ideal of taste and culture.

And now, out of the American thing, comes a new design in total silver. It takes, for its model, the twisted pediment, date-gathering symbol of early American art. It sums up all the good America's most graceful period. This its name—Minut.

House is steep in American spirit, current in modern concepts. It is the first design of the new American period.

Musical Dance of lovely Colonial society! Design with the grace of America's most graceful period! Expressing the everlasting good taste which comes to us from early America.

Almost has been developed in a complete, correct writing style, including the above, new, more, and down more.

### Waldenwood Service

**M**ANY of the world's greatest treasures in lacquer, pottery, tapestry and metal are examples of this age-old ideal of beauty. The outlines, simple and graceful, the surfaces so intricately, delicately patterned with

In the Wedgwood design, one finds this concept expressed in solid silver... and for the modern American home. The outline of the bowl (illustrated in the Flatware Section of this catalog) is a lovely flowing curve. Its surface is a variable lace work of dimensions. In the larger hollows some pieces melt as illustrated here, the intricate lace work design is made into a band. This band is surrounded with a plain surface of polished silver, giving an effect that is utterly unusual — rich, yet also extremely graceful and delicate.

This lovely work in design has been carried out in complete table service, both in the saloon and the larger pieces that make up the modern dining service. Never before has there been a design which has so clearly approached the effect of the Elipse effect. Never before a design which so happily expressed the necessities of an exclusive room.

The very arrangement of the Hollywood design is an incentive to industry to be a somewhat restricted service.

WILLOWWOOD SERVICE

## The Trianon Service

THE Trianon Palace at Versailles in its happy combination of classic simplicity and seventeenth century grandeur has inspired the Trianon pattern in International Style. The design is in its architectural framework in every detail. It is the same simplicity, the same eternal lines.

The ensemble of a table set with the Trianon Service is one of sheer splendor. Its details anyone into pictures, lovely in atmosphere.

Trianon's lines are straight, strong, massive. Its proportions are classic. Thus too, the essence of simplicity.

But, covering each piece, is a French Renaissance ornamentation, exquisitely designed, exquisitely wrought. This is the touch magnificent.

Thus, in Trianon, is simplicity, yet also magnificence, cultivated taste, yet also richness. A modern dinner service, done in sovereign style in solid silver, the sovereign metal.

Ⓢ *Top Secret* Ⓢ

**T**he *tiara* is the crown. The *horion* is the situation. The *silver* is the environment. This is one of the secrets of the popularity of wearing silver tiaras. The *tiara* section is also useful as a decorative unit. The *shibboleth*, regardless of its period, gains by combination with silver, and the silver arranged on its cool top, in gives a prominence which is lovely and words denote.

Aside from social considerations, aside from the decorative value, a tea service is one of the most useful of things alive. It serves the breakfast coffee, it pours the afternoon tea, it sugar and cream are treatable on many occasions, and the tray finds instantly the opportunities for usefulness.

A nice thing about a tea service, too, is that it can be acquired easily, by degrees, if necessary. One may start with the right endowment, then add the tea, pot, kiter the coffee and finally the towels and water. She gives the pieces separately to make this process easier and so, after one call and another, others with greater few times, some chairs and pines, others lovely with fine ornaments, all wrought with the same Amity and Craftsmanship characteristic of International Style.

### Coffee Sets

*AFTER-DINNER* coffee, whether to be considered a part of the ceremony of the formal dinner or as a function by itself, as it is in many homes today, is most appropriately served from a solid silver coffee service. It is always correct for formal or informal occasions and it creates an atmosphere of pleasant hospitality for the hostess.

Utensils of correct and proportion is possible in the after-dinner coffee service on account of its tall and elegant shape. The same quality, however, often leads a less skilled designer to something exaggerated and ostentatious. Restraint, refinement and a careful treatment of contour can make of the coffee set a lovely and artistic work.

The selection which we present in this book we believe is faithful to the highest standards of artistry. At the same time there is a wide range of size, price and decoration which will, we hope, make the problem of your selection an easy and satisfactory one.

*The New New Deal*

**A**ssess not forge, assess character. A dish often lovely, always useful. That is the first lesson of this. In this picture we find it on the no table, a place where it joys to serve, but it lives in long and useful life in many other places. On the many forms of the formal dinner, it serves the company to rest and relax. Around the loving distance buffet, beside the intimate after-dinner coffee, companion to the cigarettes in the bridge table, or at the master's elbow in living room or den, it finds its place and serves its purpose well.

Among the wedding gifts, it adorns the bride, and at anniversaries and birthdays is received with joy. As a prize it always finds favor among the ladies whether the game is indoor or outdoor. Because it is thus universally popular we make many of them in different sizes, in odd shapes, with deep and shallow basins, respectively plain, or rich with decoration—some with slender handles, others with tiny miniature chairs for the seated player.

Others on this panel, with the knowledge that in International Herald you are getting the subject in English, History and Values.

## The Bowl

A silver bowl, laden with var-colored, luscious fruit sums up the spirit of the cherry loggia. How often this is true of the bowl by of solid, enduring, sterling silver. And it need not be true always, for flowers are never more beautiful than when arranged in a silver bowl, and indeed if it have character to it, the bowl alone adds to decorative purpose.

In use, the bowl is so versatile that it is difficult to describe its full scope. Fruit, flowers, berries, salad, soup, jellies, these are only a beginning. Useless of this the bowl is a favorite—and always a safe choice for a gift on almost any occasion.

You may have them small and large, deep and shallow, simple and elaborate. They are all represented here in splendid selection. You can be sure of their quality because they bear the stamp of International Sterling. Having considered the unvarying excellence of their design, their stately is equally certain. Weighing these two factors, we leave it to your own good judgment if Value is not also there.

### Bread and Butter Plates

How much the sparkling silver bread and butter plate can do to brighten the luncheon table is demonstrated by this inviting arrangement. Here the flat silver, the bread and butter plate, the flower bowl, the compote, and the salt and pepper caddy, all bring in the Winter design.

Although this is highly desirable it is not imperative to add bread and butter plates, if they be of silver, to your service and need not match either the flat silver or other pieces on the table. The plain silver bread and butter plate is a staple for this very reason, and the plates with heavily decorated borders are also very popular.

In this section of our catalog you will find bread and butter plates plain, hammered and decorated. We suggest them discretely used in sets of six, and we also show a very complete selection of this ever-usable companion piece of the bread and butter plate—the bread tray. You will find them also in great variety of size, shape, and design, so that whatever your requirements in bread and butter plates or bread trays, we feel sure you will find what you seek in this book.

**A** FURTHER idea—this one illustrated—of handling the fruit bowl with four gradatics instead of the usual two. So many charming groupings are possible, throughout the house, with solid object gradatics, that it is a small wonder they are one of the most continuously popular articles made in shops.

So popular have they become today that it is necessary to our gross rate in their purchase. Many an unsuspecting buyer has, by low prices, been lured into an unscrupulous purchase of synthetics which, although marked "steering", are so thin that they last scarcely two days on them and are infinitely less durable than a good silver plated synthetic.

The mark of a reputable manufacturer clearly stamped on the bottom of the pint is your surest safeguard. International Sterling cutlery is not only extremely economical of material stock. They are strong and durable so wastes less delicate their beauty. What is particularly noteworthy is their originality of design, their pleasing line, and fine proportions, in short—their consummate artistry.

### Centerpieces

Place one in lovely composition with a charming pair of candlesticks as it is here. Place one in the center of a gala dinner table. Place one on the living room table. Place one anywhere where flowers are appropriate and the centerpiece table is perfect beautifully, distinctively. "Centerpiece" is after all a poor name for the piece, so give it the possibilities of its usefulness. A perfect holder for flowers, it is none the less decorative without them, and with screen removed, it becomes a fine bowl for fruit or salad.

International Sterling centerpieces are all lined with a double mesh silverplated metal artistically pierced and decorated. The double mesh makes the arrangement of flowers and the decorated screen presents a pleasing appearance when the piece is used alone.

In design, in size, in shape, the centerpieces you will find in this book vary greatly, but these things you will find outstanding in them all—Artistry, Quality, and Value.

What does health mean for young men and women? Is it just good nutrition and exercise? Or is it something more? The concept of health is complex. The word is large, and complex, and it is particularly so because of the other places where it is used.

These three variables were used to create the interaction term, *Age × Education × Gender*, which was entered into the model. The interaction term was used to test the hypothesis that the effect of age on the relationship between education and earnings would be moderated by gender.

### Child's Bowls and Cups

There is no tale of antique values, no question of social atmosphere. Here is now a question of downright utility and of "teaching the young idea how to shoot." For in these days food for the little mind is prepared with all the care an enlightened generation of parents can muster. The theory is that the child's associations determine the man's man. The child therefore must have his own knife, fork, and spoon, his bowl, pitcher and cup, and they must be of solid, enduring, sterling silver, nothing less.

The pitchers, cups and bowls herein illustrated are purely and absolutely child proof both in purpose and mechanism. Many of them are fittingly simple in design, others are decorated with a historical nursery sketch. All are simple in shape and strength in construction to withstand the hard knocks of young boyhoodness. What is even more important, all children's pieces have the safety edge which means that the user beneath the rim of the cup is fitted with silver solder to prevent accumulation of dirt or water. This is a quality feature of International Sterling which ensures the recognition of preference.

When your relationship deteriorates to this point, a professional intervention may be necessary. In the meantime, you can take steps to protect yourself and your children. If you are concerned about your safety, contact your local police department or a domestic violence hotline. If you are concerned about your children's safety, contact your local child protective services agency. Remember, you are not alone, and there are people who can help you.

Computing

if they were created for no other purpose than that illustrated in this picture, they would easily justify their existence but they are so perfectly adapted to their environment so well that no other stones in great numbers.

The small sizes are unmatched, even by the popular Benetton Unib, for men, ladies, jilly, presence or combinations of any kind. Hence you will find here a large selection of small computers, both low cases and tall ones, all of them nicely proportioned and firmly designed.

When you wish to sell something you value it too high. That is the secret of the great situation of the companies. Its high bid or stock price is high, not only its own body body capacity is weight and proportioned, but also its rich load of iron, candy or flowers....for all the world to see and admire. We are confident you will find much to see and admire in the companies presented in this book.

**First Section 201.05:**  
 (1) The board shall determine the number of members to be elected to the board, not exceeding 12, and the term of office of the members, not exceeding 3 years.

1. The first step is to identify the problem. This involves understanding the current situation and the goals that need to be achieved.

## TECHNICAL LIFE

 **Trophy Cup** 

[illegible]

For a prize of any kind nothing can be more common than the trophy or prize cup. The process of selection therefore resolves itself into a decision on size, shape and value. Here we presented ideas from a miniature six-inch cup to a thirty-six-inch cup, a fine variation of shape and ornament and price, offering the greatest value consistent with the fine quality of artistry and workmanship.

In addition to this large line of standard caps which we keep regularly in stock, we are ready and completely equipped, through our department of design, to prepare sketches and to make to order caps of a special nature that require individual construction and unusual considerations of design.

### *Salts and Peppers*

*As days of old the salt cellar was a thing of imposing size occupying an exalted position at the head of the table and presided over by the master of the house. Today the salt cellar is no longer quite size but is lacking nothing in beauty and importance, and for much more convenient it is for every guest to have the salt always within easy reach.*

*There is something very distinguished about the large, tall one. They possess dignity and majesty which is fitting for more formal occasions. In the same way there is harmony and distinction about the two individual ones which both are informal and. To have them both is most desirable for there is a definite place and use for them.*

*In this book are presented all the best types of salts and peppers in a variety of style and a uniformity of value which are only possible through resources of the Fine Arts Division of the largest manufacturers of silverware in the world.*

### Sandwich Plates and Luncheon Trays

Many of all let us explain the difference between them. It is a difference in construction only the "sandwich plate" has a base or base, the "luncheon tray" has none. Both plates are indispensable to the hostess who entertains. She not only must have them, but she must have them in abundance. Behold this buffet, and their use and necessity are apparent. Sandwiches or cakes are never so inviting as on a plate or tray of solid silver. If you have a present to give, for wedding, birthday or anniversary, you can always be sure your selection is right if they are a sandwich plate or luncheon tray. To the hostess, their use are great their possession, a pleasant satisfaction.

International Silver presents the sandwich plate and luncheon tray in their most charming forms. A few beautifully plain, many of them tooled with flowers, urns and designs applied with skillful workmen. All of them upholding the high standard of craftsmanship for which the Fine Arts Division of this company is well known.

Typical Profile of a Sandwich Plate

The "American" (No. 100) is also in the shape of a sandwich plate, but with a wide rim and a wide central depression. The rim is ornate and scalloped. The central depression is wide and shallow. The plate is made of silver or gold.

### ~ Pine Tree Flat Ware ~

**T**he Pine Tree is a pattern of native inspiration, interpreting in the modern manner a theme of Americans every day life. Its flowing outlines, beaded with pine cones, symbolize the upward sweep of the tree. On the back of each piece appears the pictorial image of the pine, America's best symbol of sterling . . . . A sterling modern beauty, a distinctive charm, are found in Pine Tree.

### ~ The Pine Tree Hollow Ware ~

**T**he Pine Tree is a genuine dignity, a fine and frank simplicity, in every flowing line of Pine Tree hollow ware. Yet, there is more than mere simplicity . . . Here you see more in the delicate Pine Tree lines, its honey incised through contours with moulded surfaces adorned only by soft-gleaming reflections. The finish on covered pieces like the form of tiny tapering pine cones. There is a lustrous charm in the soft platinum-like of the pine cones . . . an enchanting effect.

Pine Tree hollow ware is of a very heavy weight, in built such regal sturdiness. When you lift one of these pieces, you will immediately sense the substantial permanence, the perfect balance, that no photograph can well convey . . . Pine Tree hollow ware is fittingly, and most luxuriously, complete the Pine Tree service.

### The Powdered Service

**D**etermining simplicity is true in any art. There are no modern rules.

A few designs attain singularity. A few others, simplicity. But Pantheon is the rare design which combines the two, avoiding the constraints.

Parabola has moved into the curved line tradition, has gone back to the Greek *Am* and adopted for itself the beauty of straight-lined simplicity. See the straightness of its handle, the fullness of the bowl, the symmetry of its decoration.

Penthouse is made in a complete series of the silver and magnalium dinner ware. The dinner ware, like the tea set, clings faithfully to the classic tradition. Every aspect of its design is characterized by straight, strong, sweeping lines, restrained decoration in line's flow, and massive proportions.

The Panchayats design and service, unlike that of a balance which results in ideological similarities.

THE SERVICE SET, including the teapot, sugar bowl, and creamer, is a fine example of the Marie Antoinette style. The set is made of silver and is in excellent condition. The teapot is decorated with a central medallion and a band of flowers. The sugar bowl and creamer are also decorated with similar motifs. The set is a fine example of the Marie Antoinette style and is a valuable addition to any collection.

### The Marie Antoinette Service

When the accession of Louis XVI and Marie Antoinette came a complete revolution in the world of art. The detail of the crests and language in the Louis XV period was finished and the marked characteristics of the new style was a well-defined return of the classic period. The ornament of this period was classic and architectural in character. Many of the former styles disappeared . . . the flowers, scrolls, arabesques, garlands, etc., but always they were treated in a new and characteristic manner . . . one which easily identifies any piece of ornament of this period, such as this beautiful, well-proportioned Marie Antoinette Service, whose decorations are refined, restrained and treated with great delicacy. The arabesque border, scrolls connected with garlands of flowers, all beautifully hand chased, with intermittent purling of this service is a true representation of the Louis XVI period. One never tires of gazing at such exquisite taste when so well executed.

### The Deerfield Service

AS THE new and growing enthusiasm for American silver, it is only natural that attention should be focused on the simple and beautiful styles of Colonial times . . . on the designs which these splendid early craftsmen wrought with loving artistry.

Modern methods of producing solid silver make it possible for many to have the pleasure of possessing it where before there were only a few. But the same luxury is here in modern silver . . . the same fine craftsmanship.

The Deerfield Design is American hand forging reflects the ideal of those early days when "purity of form, sense of proportion and perfection of line" were preferred to elaborate ornamentation. It has that air of quiet elegance so much a part of all things truly fine.

This beautiful Colonial design is made in either bright or gray finish and may be obtained in a complete service of hollow ware and the more at more attractive prices.

been the one performing  
the work.

The three most common ways to find information on the Internet include the following. The three best methods generally involve the search engines, and not the reverse.

As the use of the library moved beyond the traditional physical space, the library began to explore new ways of connecting with its community. This was done through the use of digital technologies, such as e-books and e-journals, which allowed users to access the library's resources from anywhere, at any time. The library also began to offer online courses and workshops, which provided users with the opportunity to learn new skills and knowledge. This was a significant step in the library's evolution, as it allowed the library to reach a wider audience and to provide a more comprehensive range of services.

**T**hese basic off-road coppers—some an exclusive feature of all standard quality beverage makers and fast-food restaurants—offer a variety of Silver Company varieties—in being welcomed with local changes by all local residents of our kind in each business early stages. And that, essentially, is the end.

Primary disadvantage of the old stone work supports the limited support because a corresponding advantage is its unreliability, completely unknown and expensive, and easy to abuse. You don't have to spend it in one go it is likely, so you can be sure to invest, that it will last all day on the day in which it is a waste.

In practice, this suggests the somewhat more likely case that the 1991 traditional *hull*—average that the other current work is following— is “not” an especially successful model. It has

the trigger is one in place, the disc would not give much springlike action, making it absolutely right-handing and therefore just, meant to shoot. It then can send twice toward down, and a slight tilting, that one way and then the other, will leave it whether it may be easily killed out. The trigger can be completely disassembled by the force of the throw, making through the same way.

THE DEERFIELD DESIGN

## THE DEERFIELD DESIGN in International Sterling

*In the new and growing enthusiasm for American silver, it is only natural that attention should be focused on the simple and beautiful styles of Colonial times—as the designs which these splendid early craftsmen wrought with loving artistry.*

*Modern methods of producing solid silver make it possible for many to have the pleasure of possessing it when before there were only a few. But the same beauty is here in modern silver—the same fine craftsmanship.*

*The Deerfield Design in International Sterling reflects the ideal of those early days when “purity of form, sense of proportion and perfection of line” were preferred to elaborateness of pattern. It has that air of quiet elegance common to a part of all things truly fine.*

*This beautiful Colonial design may be had in the bright or soft gray finish.*

THE FONTAINE SERVICE

## THE FONTAINE DESIGN in International Sterling

What luxury is Fontaine. Without restraint, all the elements which compose a distinguished Silver Service have been lavished upon it. The solid Silver itself is impressively heavy that it instantly proclaims its true worth. The designing, inspired by French Renaissance in beautiful that it commands the admiration of art connoisseurs. The craftsmanship is perfect and flawless, achieved with the painstaking care of master silversmiths.

Fontaine is for the table of current appointments—for the home where fine things are treasured—for the family whose possessions are chosen for their permanency.

A COMPLETE SILVERWARE SERVICE IS MADE TO ORDER WITH INDIVIDUAL DESIGNS

THE PANTHEON DESIGN in *International Sterling*

*Distinguished simplicity! Even in my art. More rare  
in modern art.*

A few designs attain magnificence. A few others, simplicity. But Pantheon is that rare design which combines the two, attaining the unattainable—distinguished simplicity.

*Panthos's lines are straight, strong, sweeping. Its decoration—restrained and in Greek forms. Its proportions—massive. Every detail built around its solid base.*

*Restrain Pantheon any more—and it would fail of magnificence. Restrain it any less—and it would lose its simplicity. Pantheon strikes that fine balance which results in distinguished simplicity.*

THE PINE TREE SERVICE

## THE PINE TREE DESIGN in International Sterling

*The Spirit of modern America wrought in solid silver. A new design taking its inspiration from the tree that is so deeply rooted in American life and American traditions. Pine trees form the delicate, clear-cut handle. The flowing outline expresses the upward sweep of the tree.*

*On the back of each piece of flatware is the image of the pine as it appeared on the famous Pine Tree Shillings, as America's first identification of sterling.*

*Pine Tree is made in a complete series of lovely foot silver and export, heavyweight hollowware to match. Its beauty immediately compels admiration.*

A COMPLETE SERVICE INCLUDING THE KNIFE AND THE SPOON WILL BE SHIPPED WITH EVERY ORDER.

THE THESEUM DESIGN in *International Surface*

Quite the most difficult of effects to obtain in silverware is that of *discreet*—*simple discretion*.

Perhaps that is why the Thesam Design is utterly apart from usual silverware. Thesam is the opposite of garish—the antithesis of commonplace. Thesam is dignity—simple dignity. It is wrought in the most dignified of metals—solid silver.

What the outer eye beholds in *Thoreau* is: Straight, sweeping lines; a classic crown; an exquisite, cutting texture. But in *Thoreau* are also those attributes in which the inner eye has its greatest delight: Beauty of proportion; subtlety of ornament; richness of craftsmanship.

Anything less fine would not date and simplify. Anything less simple could not attain half the dignity.

## *If You Have Questions About Sterling Silver*

Write us. Whether your question is about the Hallmark on an antique, the trade-mark on an old piece of silver, the name of the manufacturer of a special pattern, or some article that you want made to order, do not hesitate to write us. We will be glad to recommend every facility of the International Silver Company to answer your question and if we can't answer it, we will refer you to someone who can.

Particularly would we be glad to have you write us concerning any advertising or display problems. We are in a position to supply attractive display and advertising material on all our patterns and we are glad to work out special plans with jewelers whenever we have the opportunity.

We are also glad to work with you, at any time, in planning and submitting designs for special trophies or other individually designed pieces. Our Factory "A" Division specializes in this work and maintains a designing staff and separate force of craftsmen particularly organized to handle such business to excellent advantage.

# Foreword

THIS is a catalog that you can really use. It is a cataloguer...not just a manufacturer's price list designed to gather dust on a shelf. Keep it within reach. Let it work for you as hard as we designed it to do.

There's no better reputation to be gained by an up-to-date more than in a place where "I can always get something I want." Naturally, this is what you are working for all the time. And it's what we're working for, too.

We keep our gift line in step with the times, in the following pages shown. This catalog will help you to do the same. You can depend on International style and timeliness just as you can depend on International line workmanship and longest value.

For customers who can't find what they want in your display, let this book be your reserve stock. It holds a veritable wealth of inspiration for every gift seeker. Every item is pictured. Prices shown, of course, are retail.

...And may you sell better gifts, and more of them!

### CONFLICTS AND FURTHER CLARIFICATIONS

**Abstract** The purpose of this study was to determine the effect of a 12-week, low-intensity, supervised walking program on the physical and psychological health of sedentary, middle-aged women. The study was a randomized, controlled trial. The subjects were 40 sedentary, middle-aged women who were randomly assigned to either a supervised walking program or a control group. The walking program consisted of 12 weeks of supervised walking, 3 times per week, for 30 minutes per session. The control group consisted of 20 women who did not participate in the walking program. The physical and psychological health of the women was assessed at baseline and at 12 weeks. The results of the study showed that the women in the walking program had significantly improved physical and psychological health compared to the control group. The walking program had a positive effect on the women's physical health, including improvements in cardiovascular fitness, weight, and body composition. The walking program also had a positive effect on the women's psychological health, including improvements in mood, self-esteem, and quality of life. The results of this study suggest that a 12-week, low-intensity, supervised walking program can be an effective intervention for improving the physical and psychological health of sedentary, middle-aged women.

WALLINGFORD, CONNECTICUT

INTERNATIONAL SILVER CO.  
BOSTON

THE BRANDON DESIGN *in International Sterling*

*Spain, there is a divine welcome home to us the one of those delightfully "divine" places...a place that takes its air from its mountains, a place that breathes fine simplicity rather than grandeur! We will find this true Colonial pattern "just made for" her.*

The well-fitted" when the artist knows. Besides, with its graceful lines and beautiful proportions, is the right design to complement the rustic motif of her home.

*It is the kind of pattern which impresses itself by its randomness." For it is neither stiff nor formal in its lines. Charmingly informal, rather, Brandon is thus difficult ideal to achieve....the "naive medium between too much and too little!"*

THE GEORGIAN MAID DESIGN is *International Seelings*

*Of all designs, most truly feminine is the curved-line design. Evelyn calls the curved line the purest form of beauty.*

Among curved-line designs, give the juve example is the Georgian Maid, in *International Wedding*. Broominess itself is its outline. Delicate is its decoration, and is restrained that it serves to emphasize the grace of the curves. While the whole is wrought with that fineness which is possible only in solid silver.

This Georgian Maid assumes a general effect of sheer feminine loveliness, which is exactly the style in which the dainty feminine type dances in our day.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

[illegible]THE MINUET DESIGN in *International Sterling*

*Minnetta! First design in silver to come out of the American Wing of the Metropolitan Museum of Art. First to capture the grace of America's most graceful period. First to express in silver the great movement toward an American style.*

*"Mies' simple in design, graceful of line and proportion, correct. Governed by the symbol of Cubism simplicity, grace and good taste . . . the cratted pedestal, is correct as that simplicity and charm is characteristic of Basic American design.*

AMUSE has been developed in a complete dinner service. It is the last word in modern correctness down to each single detail of the silver and hollow ware. It offers to the discriminating hostess the opportunity of serving her table with all the grace and charm of the American style, and of serving her dinner with all the finesse of the twentieth century's manners.

THE TRIANON DESIGN *in International Sterling*

The ensemble of a table set with the Truman Service is one of sheer splendor. Its details compare into pictures, surely in themselves.

Triangles' lines are straight, strong, unbroken. Its proportions are classic. This facade evokes a simplicity.

But, revealing each place is a French Romanticism concentration . . . carefully designed . . . carefully executed. This is the most magnificent.

Thus, in Triaman, is simplicity, yet also magnificence... sublimated taste, yet also richness. A modern dinner service, done in sovereign style in solid silver, the sovereign metal.

**THE WEDGWOOD DESIGN** *in International Sterling*

*The H'advised experts' experimenters will most delight-  
ful from the success.*

In nature, it is a simple, flowing line. In nature, it is an intricate, delicate pattern.

To consider an actual piece, note the fork. Its handle is a variable amount of arms, flares, drops, and banding. Each minute detail is in relief. The effect is a silhouette that is eminently open, delicate.

*Yes, this delivery is impartial. It is wrong to form  
solid sides.*

*Never before has there been a design with this filigree effect. Never before, a design which so happily expressed the personality of an artistic woman.*
