Tristan Schultz

Tristan Schultz is a Lecturer and Convenor of Visual Communication Design in the Design Futures Program at Griffith University. Tristan is an Australian/Aboriginal interdisciplinary designer, strategist and researcher with a Master of Design Futures (Hons) and PhD Candidate. Recent research has focused on how design has been, and still is implicated in ongoing colonialism, particularly in relation to Aboriginal cultures in Australia.

He is also the founder and co-director of Relative, a forward-thinking, strategic design practice with a focus on using up-to-date research and community engagement processes to help people understand complex challenges and to support behavior changes.
