

CLICK

Have you heard the sound
CLICK before?

Suck your tongue against
the roof of your mouth and
release it.

Did you hear a **CLICK**?

These bugs, called **CLICK** beetles, pop themselves into the air to escape predators.

CLICK around your mouse and keyboard to surf the Web.

This can take you to unexpected places. Be careful—**CLICKS** are a powerful thing.

These bugs, called **CLICK** beetles, pop themselves
air to escape pressure.

Some people will abuse the power of **CLICKS**.
Pens are a prime source.

Friends will sometimes say, "We just **CLICKED**."

These huge, self-

S

You can also find **CLIQUEs** inside any corporate building. Unfortunately they are everywhere.

The most addictive **CLICK** is probably the one your remote control makes.
