# 101 Ways To Pick Up Girls...

by Harvey Pekar  
Hey, fellas. How many times have you been walking down the street, thinking about nothing in particular, when all-of-a-sudden a vision of loveliness appears before you-- She's got long, delicately curved legs,

firm, uplifted breasts; beautiful, wind-blown hair--she's the woman of your dreams.

You follow her frantically thinking of something to say. Finally, she gets into a taxi and whisks away, leaving you with your mouth hanging open,

another opportunity lost!

This column is especially written for guys like you. Every day a surefire method of picking up girls will be illustrated. Try out the technique shown below and see if it doesn't help.

Try it guys. It's magic!!!
