La Torre degli Artisanì

At one point
the town was filled with towers
built by great and powerful families
to mark the height of their importance.

Many were too hastily constructed,
others had unstable foundations,
some leaned,
most crumbled,
like so many dashed reputations.

But the grandest of these has survived
beyond the limited note of its patrons,
fashioned by talented craftsmen
who threw their most brilliant creations
into the arching dome of the sky
like so much
dazzling confetti.
